"I have been a representational painter for over 30 years. I live in Southern New Jersey on the Delaware river with my wife Michelle. Much of my work has been in response to living along the river with beautiful vistas and sunsets. I also have been interested in figures within spaces and the way light can define space. I work from a combination of plein air, site studies and studio work. I attended Penn State University and Tyler School of art where I studied drawing and graphic design. I have studied with several instructors from the Pennsylvania Academy of Fine Arts in Philadelphia. I will be demonstrating how I used a combination of palette knives and brushes to create a study such as this." ('Buskar' oil on linen, shown at right)

Next BCAG Virtual Social Meeting will be on Tuesday, January 12th at 7:30pm. Are you ready for a new Art Challenge?
